INTRODUCTION

LOS ANGELES DIRECTORY CO., publishers of the Monrovia, Arcadia, Duarte Directory, as well as many other city and county directories, present to subscribers and the general public, this the 1937 edition of the Monrovia, Arcadia and Duarte Directory.

Confidence in the continued growth of the communities' wealth and population, and in the advancement of municipal and social activities, will be created as sections of this directory are consulted, for the directory is a mirror truly reflecting the community to the world.

The enviable place occupied by Los Angeles Directory Co.'s directories in offices, stores, libraries and homes throughout the country, has been established by rendering the best in directory service. With an unrivaled organization, and having the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Monrovia, Arcadia and Duarte Directory will fulfill its mission as a source of authentic information pertaining to the community.

Population

The estimated population of Monrovia is 14,953, based on the number of individuals' names in alphabetical section of the directory, with due allowance for children and for women whose names are not listed separately from those of their husbands. Territory immediately adjacent, which is part of the city, as far as business and social life are concerned, is included in the directory. The population of Arcadia is estimated at 8,275 and of Duarte 1,527.

Five Major Departments

The several essential departments are arranged in the following order:

THE APHABETICAL LIST OF NAMES of residents, business firms and corporations for Monrovia is included in pages 13 to 160. A similar list of Arcadia is contained in pages 209 to 288, and Duarte in pages 317 to 334.

THE DIRECTORY OF HOUSEHOLDERS, TENANTS OF OFFICE BUILDINGS AND OTHER BUSINESS PLACES AND STREET AND AVENUE GUIDE for Monrovia covers pages 161 to 208. In this section the names of the streets and avenues are arranged in alphabetical order; the residences and business houses are arranged numerically under the name of each street and avenue, and the names of householders and business concerns are placed opposite the numbers. Home property ownership is indicated by the character (o) placed immediately after the name of the householder. A similar guide for Arcadia is contained in pages 289 to 316.

THE BUYERS' GUIDE of Monrovia, opposite page 334, printed on tinted paper, contains the advertisements of leading manufacturing, business and professional interests of Monrovia. These pages will be found particularly interesting and instructive to substantial purchasing factors. The advertisements have been carefully grouped by departments and are indexed under headings descriptive of the business represented. This is reference advertising at its best and, as such, merits a survey by all buyers anxious to familiarize themselves with sources of supply. The community's activities, in many interesting phases, are authentically pictured. In an ambitious and progressive community like Monrovia the necessity of having this kind of information immediately available, is very great and, frequently, pressing.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 335 to 388. This department lists the various manufacturing, mercantile and professional interests of the whole community in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable epitome of the business interests of the community. "The Directory is the common intermediary between Buyer and Seller." As such it plays no small part in the daily doings of the business world. "More goods are bought and sold through the Classified Business Directory than through any other medium."

THE NUMERICAL TELEPHONE DIRECTORY for Monrovia is given on pages 389 to 408, and Arcadia on pages 409 to 420.

Community Publicity

The directory reflects the achievements and ambitions of the community, depicting in truthful terms what it has to offer as a place of residence and as a business location. To broadcast this information, the publishers have placed copies of this issue of the directory in Directory Libraries, where they are readily available for free public reference and serve as perpetual and reliable advertisements of the community, for business men, everywhere, realize that the city directory represents a community as it really is.

The Monrovia Directory Library

Through the courtesy of the publishers of the Monrovia, Arcadia and Duarte Directory, a Directory Library is maintained in the offices of the Monrovia Chamber of Commerce for free reference by the general public. This is one of the 450 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the city directory as an advertising medium, with assurance that it will bring a commensurate return.

Monrovia is located 18 miles northeast of Los Angeles on the Foothill Boulevard, a part of the National Old Trail, at the base of the Sierra Madre Mountains overlooking the San Gabriel Valley. The elevations is from 450 to 1,100 feet, with an estimated population, as of January 1, 1936, of 16,000 people.

Monrovia is on the main line of the Santa Fe, a branch line of the Southern Pacific and the Pacific Electric railways, with bus service to all points. Location, transportation, reasonable real estate values, ideal living conditions, excellent educational facilities and an adequate supply of labor make Monrovia exceptionally well adapted for homes or industries.

Monrovia is internationally known as a health resort, and is the home of the Pottenger Sanatorium, famous for its successful treatment of tuberculosis.

A Chamber of Commerce that is well equipped and glad to be of service to visitors, and to its community, will furnish specific information upon request.

MONROVIA

Directory of Householders

Occupants of Office Buildings and Other Business Places

Including a Complete

Street and Avenue Guide

1937

Copyright, 1937, by Los Angeles Directory Co.

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or house owner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable. In all streets both sides of the streets are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

Numerical Streets follow the Alphabetical Streets.

The symbol (o) following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The classified portion catalogues the professions and goods handled here.

Are you listed under your proper heading, so the prospective buyer can find you?

Think it over!

Arcadia, Queen of the Foothills

Yes, I live in Arcadia. No, I haven't lived here long. You know most of us Southern Californians are recently from somewhere. Why did I decide to locate in Arcadia? Well, there are so many reasons, their number may tire you, but here goes.

The character of the city's inhabitants appealed to me. Most of them are native born Americans and 95 per cent of them live in their own homes. Can't go wrong in locating in a town like that. Then it isn't a big city, its area being about 12 square miles and its population about 8200, but it is criss-crossed with 70 miles of paved streets with easy access to three main highways leading into the city of Los Angeles, only 15 miles away, and if you don't want to drive into the city, the inter-urban electric cars are here for your convenience.

There are schools and churches ample for the needs of the community. A fine public library. A flourishing Woman's Club. Rotary and Lions add to the cultural and social attractions of the city.

The recreational facilities of Arcadia cannot be equaled in any city of comparable size in the United States. This is the home of Santa Anita Park, the race track conducted by the Los Angeles Turf Club. No better equipped and better conducted track exists in the United States. In the County Recreational Park, located in the very heart of Arcadia, is an 18 hole golf course, sporty enough for the golf shark and yet simple enough for the novice. A regulation base ball diamond with grand stand, bowling greens, tennis courts, shuffle board courts, a big swimming pool, all in a setting of beautiful flowers and shrubs.

Utilities in Arcadia are cheap, especially water from our own municipal water system, and such water. You never quaffed a drink from "the old oaken bucket" more pleasing than we in Arcadia drink every day.

We have a good city government, an efficient police department with all police cars radio equipped. Taxes are low.

Then we have courteous business men to deal with, who cater to the merchandise needs of the community with ample stocks and attractive prices.

Well, I think I have given you enough reasons why I located in Arcadia, but this little story wouldn't be complete without telling you of a part of the city where almost every home is located on a half acre or acre of ground. Almost every front yard is beautiful, and when you step around to the back yard you will see orderly vegetable gardens, family orchards, a flock of chickens either for the home or on a commercial scale, hutches of beautiful, big white rabbits that supply the home table or the big markets with delicious rabbit fryers. Now do you blame me for locating in Arcadia? If I haven't told you all the things you would like to know, just drop a line to the

LOS ANGELES DIRECTORY CO. , Publishers

TRADE! You like

to patronize those concerns who are in business to stay.

It's human to expect that such business establishments always stand back of the wares they sell.

The advertising in this Directory is suggestive of the stability and permanency of the advertisers.

Frauds, fakes, get-rich-quicks and other schemers have little use for directory advertising. It lives too long.

The modern City Directory is a business institution. It occupies a place peculiarly its own. It is as necessary to the progress and development of a city generally as anything naturally would be which deals with such fundamentals as the citizens themselves.

If you are not advertising your business in the Directory, may we explain how and why it will pay you?

ARCADIA

Directory of Householders

Occupants of Office Buildings and Other Business Places

INCLUDING A COMPLETE

Street and Avenue Guide

1937

Copyright, 1937, by Los Angeles Directory Co.

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or house owner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable. In all streets both sides of the streets are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

Numerical Streets are compiled following the Named Streets.

The symbol (o) following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes, no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

LOS ANGELES, CALIFORNIA

THIS PUBLICATION IS THE PRODUCT OF A MEMBER OF

Thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9 To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

The City Directory

places the city on the map and is its only representative to the world beyond its own gates.

It is the city's catalogue of business and represents the city, its citizens and institutions in every corner of these United States.

It is the logical means of publicity in advertising the city, its manufacturing industries, its advantages and resources.

The men who direct the affairs of progressive and up-to-date business institutions, recognize the fact that the City Directory tells the story of the city's life and keeps it before the public as no other publication does or can.

Its Classified Business Section furnishes a list of all trades, professions and pursuits, constituting a special trade directory or buyers' guide and is the best advertising medium on earth.

Many a limping business is kept from healthful development by the morbid aversion of one of a firm's members to publicity — perhaps he is honestly so conscious of the excellency of his wares that he expects the world to search them out.

But the busy world hasn't time. If you have a good thing to sell proclaim it from the housetops. The world wants good things, but it can't discover them in hiding places. Bring them into the market place.

CITY DIRECTORY USES

1. Sales Promotion

a—Sales Analysis—

Comparing present amount of business obtained in a given area with possible maximum business in that area. The Householders' Directory shows the classes of business located on a street, in office buildings, in sections of the city, etc. In checking up salesmen's calls on business in an assigned territory the directory presents a picture of how many places have not been reported upon, and shows a ready list of prospects for your goods or service.

b—Leads—

Determining parts of city best suited for increasing business. The alphabetical listings for each business and professional concerns, shows the names of the owners, partners or officers.

c—Selected districts—

Determining parts of city best suited for increasing business. The Householders' Street Directory shows the exact type of business or residences along each street of the city—and shows if the occupant of the home is the owner.

d—Building mailing lists and direct mail campaigns—

1. Listing of local people (Neighborhood List) within a given radius of business location. On your city map, draw a circle to include the territory you wish to cover in your neighborhood list. From the map you can obtain the name of each street with intersections in the circle you have drawn. In the Householders' Street Directory you will find the correct name of the occupant at each house, or building on these streets. This will give you a 100% list of the territory desired.
2. Lists of business houses and the professions—The business directory at the end of the book classifies every business and profession according to the nature of the business. Complete lists such as doctors, lawyers, printers, garages, auto dealers, furniture stores, contractors, etc., can be found in this classified directory section.
3. Vocational Lists—Such as clerks, stenographers, telephone operators, carpenters, salesmanagers, purchasing agents, laborers, etc. The alphabetical directory shows the occupation of every individual in the city. Run over the alphabetical pages—check marking the persons whose occupation is the one wanted for your list. This will give you a complete and accurate list for the entire city.

2. Credit

a—Verifying customer's statements and information—

b—Information about customer—

Correct name, address, where employed and wife's name is given in the alphabetical directory for every individual. Whether he rents or owns home is usually shown in the Householders' Directory.

c—Determining character and stability of applicant for credit—

This directory gives his present occupation and residence. By referring to each yearly edition of the directory for the past few years, it is quickly determined whether the applicant holds the same job and residence, or flits from one job to another and one residence to another. After the new directory is delivered to you keep the old one on file. Never destroy it. You'll find old ones invaluable in checking your past records.

FOR EVERY BUSINESS

d—Identifying applicant and applicant's references—

The alphabetical directory gives complete information for each individual. (See information about customer). The references given by the applicant for credit can be identified in the same manner—who they are, what position they hold, etc.

e—Collecting accounts—

Tracing and locating debtor. Locating other members of debtor's family or relatives.

3. Delivery and Shipping

a—Routing—laying out route for delivery—

Use description of streets in the Householders' Street Directory, with an indexed map of the city for locating and laying out delivery route.

b—Obtaining correct addresses—

Where numbers on shipping instructions are not plain, or only street is given, the correct number can be found in the alphabetical or Householders' Street Directory.

c—Locating streets, buildings, un-numbered houses—

A full description of every street—with location—is given in the Householders' Street Directory. When the address given is an apartment or building without street and number being given, the alphabetical section will give you the correct street and number for that building. Many buildings on streets are not numbered—or badly numbered—making it difficult to find the building wanted. The Householders' Street Directory shows the location of the building along the streets.

4. Purchasing

The complete classified business section in the back of this directory makes available all sources of goods wanted; assists in selection of most reliable and satisfactory firms to deal with; the nearest companies to facilitate delivery of purchases, and determining the proper official of firm to deal with. The standard classified headings are complete and show all firms under the proper headings. There are many special headings marked with an asterisk (*) showing firms in display type. These firms are progressive and desire a more complete classified representation of their products.

5. General Information

The Alphabetical Directory lists—Persons' full name and correct spelling, occupation, where employed, street address of residence, if married gives wife's name, head of house or roomer, renting or owns home. Lists all corporations showing offices, all partnerships showing partners, all individual business showing proprietor. All public officers, clubs, associations, etc.

The Householders' Street Directory shows every street—a description of its location, all occupants on each street, the ownership of the property and all intersecting cross streets.

The Classified Business Directory shows all business in the city arranged under heading most descriptive of the nature of the business.
